

13th May 2011

Dear Sir / Madam,

Mackenzie & Ebert Ltd.

I am writing on behalf of Goodwood Golf Club, Ontario, Canada regarding the services provided by the golf course design company Mackenzie & Ebert Ltd.

We used their services for the design of a new golf course at Goodwood. Martin Ebert was the lead designer throughout the project. First of all he was working for Donald Steel & Company and he made all of the visits with Donald Steel.

Martin prepared all of the layout plans, detailed plans and specifications.

Following the closure of Donald Steel & Company in 2005, Mackenzie & Ebert Ltd. continued to serve the project for all of the construction period which commenced in March 2006. Martin Ebert made 14 visits during the construction of the course and we were very happy with all of his dedication, accuracy of plans and coordination of the implementation of the design of the course.

I have no hesitation in recommending Mackenzie & Ebert Ltd. for any golf course design projects.

Yours faithfully,

Don McIntyre

Vice President

Angus Glen Golf Club
